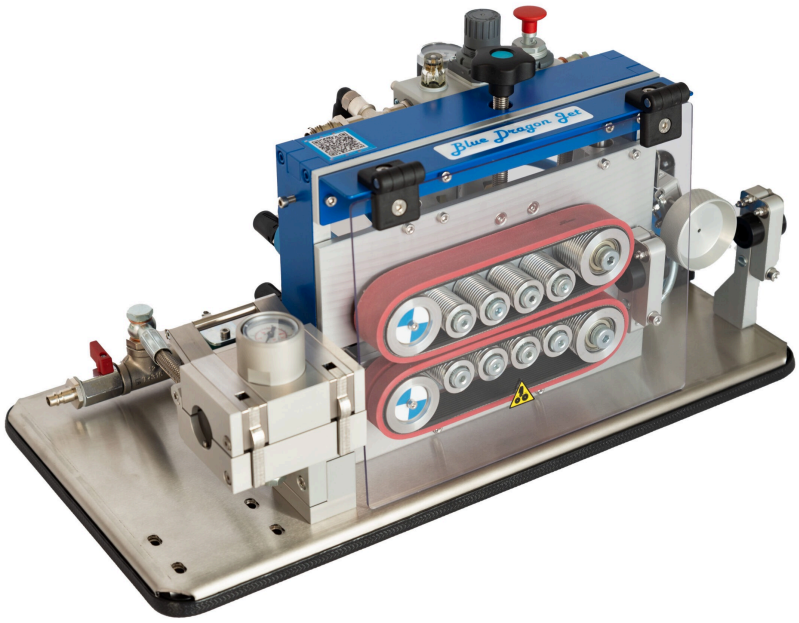
Blue Dragon Jet®

Data Sheets

NEXT



Reach:	3500 m
Duct:	7, 10, 12, 14, 16, 20mm
Cable:	2,5 – 12 mm

BDJ NEXT

BDJ NEXT is an efficient blowing machine designed for the professional construction of FTTH and FTTx networks. The optimized "M" type head ensures exceptionally easy operation, better sealing, and optimal airflow during cable installation.

PRODUCT DETAILS

- **Operating speed:** TReady to use in seconds thanks to a tool-free system and a quick-closing head.
- **Efficiency:** Precisely guided inserts and an improved sealing system allow for safe installation over long distances.
- **Warranty:** Standard 3 years with the possibility of extension to 5 years (annual service at an authorized partner required).

TECHNICAL DATA

Cable diamete	2,5 – 12 mm
Duct diameter	7, 10, 12, 14, 16, 20 mm
Max. blowing length	3500 m
Max. blowing speed	Powyżej 120 m/min
Max. working pressure	15 bar
Machine dimensions (L×B×H)	580×300×320 mm
Machine weight	approx. 20 kg
Transport case dimensions	640×390×410 mm
Total set weight	approx. 33 kg

SET CONTENTS

- NEXT blowing machine with M-type head
- Transport handle for the machine
- Special cable inserts (4, 6, 8, 10, 14 mm)
- Special microduct inserts with integrated seal (7, 10, 12, 14, 16, and 20 mm)
- Set of seals for cables and microducts (from 2.5 to 12 mm)
- Microduct cutter (0–25 mm)
- Calibration ball set (2 pcs each: 3, 5, 7, 8, 10 mm)
- Prelube 5000 lubricant (0.24 l) and pneumatic oil (0.25 l)
- Air hose (3/4") with a length of 10 m
- User manual

WARRANTY AND SERVICE

Standard warranty of 3 years, with the possibility of extension to 5 years. The condition for the extended warranty is an annual service performed by one of our authorized service partners.
