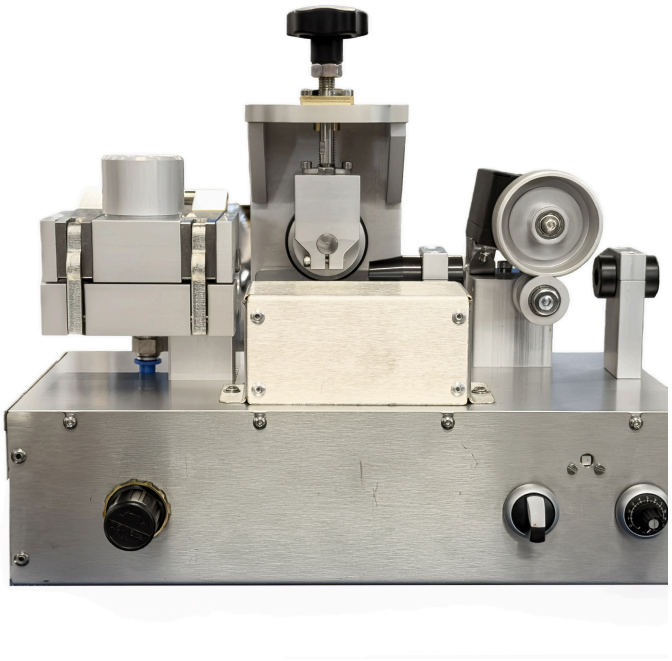
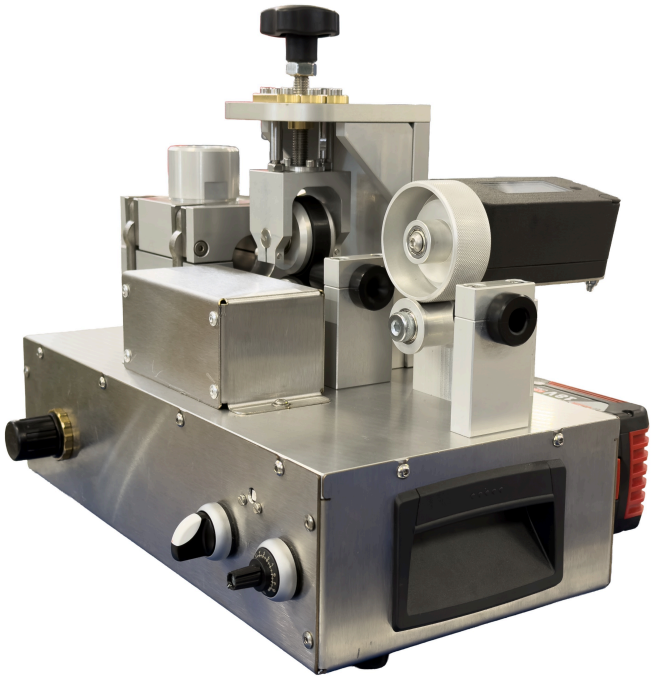
Blue Dragon Jet®

Data Sheets

MINIe





Reach:	1000 m
Duct:	7, 10, 12mm
Cable:	2,5 - 10 mm

BDJ MINIe

BDJ MINIe electric micro-blowing machine was created for the construction of the last miles of FTTH and distribution networks. Driven by an electric motor and powered by an efficient battery, it ensures fully mobile and emission-free operation without the need for external power sources. It is equipped with a practical length counter that allows for reading the length of the blown cable.

PRODUCT DETAILS

- **Length Counter:** Integrated counter for precise measurement of the installed cable.
- **Roller Drive:** Equipped with removable rubber bands that can be easily replaced when worn.
- **Bushings:** Thanks to the guide bushings, it allows for blowing fibers starting from as small as 0.7 mm in diameter.

TECHNICAL DATA

Cable diameter	0,7 – 10 mm
Duct diameter	7, 10, 12 mm
Max. blowing length	1000 m
Max. blowing speed	180 m/min
Max. working pressure	15 bar
Machine dimensions(L×B×H)	260×160×230 mm
Machine weight	approx. 5 kg
Transport case dimensions	480×350×330 mm
Total set weight	approx. 15 kg

SET CONTENTS

- PRELUBE 5000 lubricant (240 ml).
- Microduct cutter.
- Sleeve set.
- Seal kit.
- Allen key set.
- Socket wrench.
- 10-meter air hose.
- 2 x compressor adapters.
- Calibration ball set.
- Transport case.
- User manual.

COMPRESSOR

Recommendation: **ATMOS PDP 50**

WARRANTY AND SERVICE

Standard 3 years with the possibility of extension to 5 years (requires annual service at an authorized partner).
